2. Originator: EADS-D

To: IPET

Date: 20 October 2008

3. SPEC 2000M Reference
Volume 3, Appendix 1, DE: SMFR

4. Description Of Request for Clarification and Answer Provided:

Request:

DE: SMFI code "R" defines that a "Reference to Modification Instruction is obligatory".

Is this required for Initial Provisioning and / or IPD?

In which DE should this information be provided?

Which information should be provided, e.g. Mod Leaflet, Mod Kit Number?

Answer:

Reference to the Modification Instruction is not intended to be included in the IP presentation. This reference is obligatory in the engineering process of reworking of the item. In other words, the "reworked" item can only be produced by adhering to the instructions.
