The electronic NATO Ammunition Data Base

Powerful, ammunition-dedicated search tool, covering more than 433 000 items held in the NATO inventories.

A Unique Tool

Designed to assist all those who need information related to ammunition:

- Defence ministries
- Military headquarters and units
- Defence industries
- Academic institutions
- Research organizations

Cross-Reference Architecture

- Interchangeability data (NATO Ammunition Reporting Code (NARC) description, Ammunition Type, etc.)
- Technical data (UN Serial Numbers, Hazard Classification Codes, Muzzle Velocity, etc.)
- Logistics data (Net Explosive Content, Package Quantity, Shipping Name, etc.)
- Links to NATO ammunition publications and related documentation
- Includes over 450 ammunition-related publications
- Database reports can be printed and exported to other software applications

Available to authorized government and commercial entities on an annual subscription basis

Online subscription at:
www.nspa.nato.int/en/enadb.htm

The screenshot displays the 'electronic NATO Ammunition DataBase' interface. At the top, there are navigation tabs for 'Item Search', 'Publication Search', and 'Characteristics'. Below this is a search criteria form with fields for NSN/NIIN, NCB, Part Number, NCAGE, and NCAGE Name, alongside a 'User Nation' field. The main content area shows 'NSN Details' for NSC 1315 and NSN/NIIN 17-100-8039. It includes fields for 'Item Name Code' (19846), 'Name (Segment A)' (CARTRIDGE, 120 MILLI), and 'Name (ACADPP)' (CARTRIDGE, 120 MILLIMETER). A 'Federal Item Identification Guide' section contains fields for 'Demil Code', 'Unit of Issue', and 'Users'. Below this is a 'Reference (2)' table with columns for 'NCAGE', 'NCAGE Name', 'Reference Number', 'RNSC', 'RNCC', and 'RNVC'. The table lists two references: H1274 and H3350. A 'Decoded Characteristics' section provides detailed technical data for the cartridge, including 'Requirement statement', 'Clear text reply', and 'Special Features'. An 'Interchangeability Data (Form, Fit and Function only)' section includes a 'NARC Description' table and an 'Associated Weapons' table. The 'NARC Description' table lists countries (DE, DK, NL, US) and their corresponding descriptions. The 'Associated Weapons' table lists countries (DE, NL, US) and their corresponding weapons (LEOPARD II, LEOPARD II, M256). A 'Remarks' section indicates 'NO DATA AVAILABLE'. At the bottom, there is a table with columns for 'Country', 'NSN', 'Country Short Code', and 'Model Number', listing various NATO member states and their respective NSN and model numbers.
