

## NSPA CLEAN ENERGY INDUSTRY EVENT 2023 CALL FOR INTEREST

Capellen, 13 December 2022

*Dear Ladies and Gentlemen,*

I am pleased to announce that NSPA is holding the Clean Energy Industry Event on **07-08 June 2023 in its premises in the G.D. of Luxembourg** (11 Rue de la Gare, Capellen).

This event has been organized in support of the Alliance's level of ambition on climate change mitigation and adaptation, materialized in a context of increased demand on operational deployable capabilities, where innovative energy solutions have a pivotal role.

This event shall therefore bring together military and NSPA specialists with **NATO, Swedish and Finnish key industry players, e.g. manufacturers, designers, innovators, etc**, in the various fields around "Clean Energy", to exchange information on the evolution of technology and its application to the military equipment and support.

The programme will comprise a combination of briefings and presentations, together with the opportunity for attending companies to exhibit its equipment and perform live demonstrations.

Please communicate your interest and/or suggestions to participate sending the attached form to [clean.energy@nspa.nato.int](mailto:clean.energy@nspa.nato.int) no later than **28 February 2023**, together with the key details of the equipment/technology to be presented/displayed. The agenda and administrative details will be released shortly thereafter to the interested companies within the targeted industry.

I look forward to your participation in what promises to be an exceptional event.

Sincerely,

Patrick FESQUET  
Director of Procurement

<sup>1</sup> Energy that comes from renewable (constantly replenished), zero emission sources that do not pollute the environment and/or energy saved by energy efficiency measures

### Questionnaire for Industry

1. In order to better track all questionnaires, it would be appreciated if you would indicate in each submittal the following information:

<b>Company or Organization Name:</b>	
<b>Address (legal address, site of effective administration, or main production):</b>	
<b>Country of incorporation/registration:</b>	
<b>Company web site:</b>	
<b>Focal Point Last/First name:</b>	
<b>Nationality:</b>	
<b>Position:</b>	
<b>Email address:</b>	
<b>Telephone:</b>	

2. Please mark below the clean energy sectors your company is more focused into and provides relevant solutions

Clean Energy Sector in Deployed Environments	Tick the box YES only if your Company provides solutions on the corresponding Clean Energy Sector	
1. Energy generation	Yes	No
a. from renewable sources	Yes	No
b. from waste	Yes	No
c. from other zero-emission sources	Yes	No
2. Energy storage	Yes	No
3. Energy management and distribution	Yes	No
4. Energy efficient HVAC solutions	Yes	No
5. Energy efficient housing / sheltering solutions	Yes	No
6. Energy efficient lighting solutions	Yes	No
7. Energy efficient wastewater treatment	Yes	No

## **NATO SUPPORT AND PROCUREMENT AGENCY**

## **AGENCE OTAN DE SOUTIEN ET D'ACQUISITION**

8. Energy efficient water purification	Yes	No
9. Clean/electric mobility (air, maritime, land and space)	Yes	No
10. Other (please state)	Yes	No
11. Other (please state)	Yes	No

3. Would your organisation/company be interested to present any success stories and/or lessons learned from the application of clean energy solutions in deployed environments?

YES	<input type="checkbox"/>	NO	<input type="checkbox"/>
